Resource Expert

Kaley Laleker

Deputy Director of the Land Management Administration at the Maryland Department of the Environment (MDE)

Email: kaley.laleker@maryland.gov

Kaley Laleker is the Deputy Director of the Land Management Administration at the Maryland Department of the Environment. The Land Management Administration includes recycling, composting, solid and hazardous waste, animal feeding operations, mining, oil control, land restoration, and lead poisoning prevention programs. Prior to her current position, Kaley worked in the Department's Resource Management Program, primarily on composting and other recycling policies. She has been with the Department for 5 years.
